PROFESSIONAL SUMMARY

Front-End Developer with 3 years of experience building responsive web apps using React.
Skilled in SPA/MPA architecture, clean code, and team collaboration.

WORK EXPERIENCE

Front End Developer   **Tihodev, Iran - Mazandaran**   **Apr 2024 - Present**

Contributed to the development of e-commerce and enterprise websites using modern front-end technologies. Focused on building responsive UI components, optimizing performance, and ensuring cross-browser compatibility

- Led the development of a Minimum Viable Product (MVP) under time constraints by coordinating tasks and working extended hours. Successfully delivered the project ahead of schedule with full functionality, meeting all technical specifications and client expectations.
- Actively mentored junior developers by guiding them through ongoing projects, explaining the architecture, and reviewing their code. Helped streamline team collaboration and ensured smooth handover and maintenance of existing codebases.
- Led the development of the MVP, taking full responsibility for project delivery. Worked extended hours to ensure all milestones were met and successfully completed the project ahead of schedule, exceeding the initial deadline expectations.

Front End Developer   **Bioarc, Iran - Ilam**   **Mar 2023 - Mar 2024**

- Collaborated with hospital staff and medical professionals to understand specific requirements for hospital websites. Focused on creating user-friendly layouts and ensuring the integration of essential features such as appointment scheduling, patient portals, and medical records management.
- Played a key role in improving website usability and user accessibility by implementing WCAG (Web Content Accessibility Guidelines) standards. Ensured that the hospital websites were fully navigable by all users, including those with disabilities.
- Completed full redesign of existing website to improve navigation, enhance visuals and strengthen search engine rankings.

Front End Developer   **Freelance**   **Jun 2022 - Mar 2023**

- Worked as a freelance developer to deliver custom web solutions, including building ecommerce platforms, educational websites, and corporate portals. Focused on ensuring websites were secure, scalable, and easy to maintain, while utilizing the latest front-end technologies like React and Next.js. Assisted clients with the integration of third-party APIs and payment systems, ensuring smooth user experiences.
- Collaborated closely with clients to understand their business requirements and delivered high-quality web solutions that met their goals. Worked with cross-functional teams, including designers and back-end developers, to ensure seamless integration and optimal performance. Regularly communicated with clients to provide updates and incorporate feedback for continuous improvement.
